### My Favourite Neighbour

In my life, I have many neighbours such as John Chan, Betty Yuen and Paul Lam. Among all of them, my favourite neighbour is Peter Wong. He is also my best friend.

Peter and I are studying in the same class. After school, we always go home together. We do our homework together, play together, eat together and we share every single thing together.

Sometimes I visit Peter's home and play with him. Sometimes he goes to my home and talk to me. We have a very good relationship. When we have difficulties, we always try to help each other by giving ideas to solve the problems. I feel very happy to have such a good neighbour.
