The most amazing thing I've ever seen is ...

When I was five years old, my parents took me to the circus. In the circus, there were many different performances. For instance, there were trapeze, lion-taming and so on. All of them were interesting and exciting.

The most unforgettable circus performance was trapeze. The trapeze artists held the short bars hanging high up in the air from two ropes. They performed special swinging movements. It was really so amazing that they wouldn't fall down!

Besides, the lion taming performance was also very exciting. The lion tamer ordered the lion to jump through fire ring without getting hurt! It was really nimble!

Circus is the most amazing thing I've ever seen. Oh! I love circus!
